

30 Years Brings a New Chapter

BY: BARRET COLE, PG, LEP ON MAY 11, 2023

Sanborn Head is excited to celebrate the company's 30th anniversary and the April 17 opening of our new corporate headquarters in Bedford, New Hampshire.

Our office in Bedford marks a new chapter for the firm as we bring together staff from our Westford, MA and Concord, NH offices. With these milestones, we celebrate our people, our clients, and our friends who have been part of our journey and we look forward to partnering with you for many years to come.

When Sanborn Head was founded in 1993, Paul Sanborn, Charlie Head, Chip Crocetti, and Scott Shillaber followed three simple concepts – do the right thing, provide highly responsive and technically excellent service to clients, and work in the interest of the greater good of the firm and its people. Over the past 30 years, these principles have guided us as we have grown to be the truly exceptional firm we are today.

Sanborn Head employs about 175 talented people, spanning six offices and many more remote work locations. Over the years our practice areas have evolved with our clients in the development, energy, industrial, and solid waste markets. And, our work with these clients has fostered many long-standing and fulfilling relationships. We are proud to have made a difference to the world around us through great people teaming with great clients on great projects.

The founders of Sanborn Head had a vision for a generational company, one that would thrive over multiple generations of people and projects. In this 30th anniversary year, we are excited to celebrate the legacy of our heritage while building on our cultural, geographical, and technical strengths to create opportunities for our people and our clients.

We look forward to working with you toward successful outcomes for another 30 years.

The address for our new corporate headquarters address is 6 Bedford Farms Drive, Suite 201, Bedford, NH 03110.
