

Damiano and Zemba Present at SNESWANA Technical Session

OCTOBER 16, 2017

SANBORN  HEAD

Sanborn Head is proud to have Lisa Damiano and Stephen Zemba presenting at the SNESWANA Fall Technical Session on October 16.

They will be discussing the history of landfill gas-to-energy (LFGTE) engines and continuing evolution of the technology. Both greenhouse gas offsets and environmental concerns of the LFGTE engines will be explored and compared to other alternative energy solutions.
