

Geosynthetics Publishes Article by Damiano and Steinhauser

MAY 1, 2020

Sanborn Head is proud to announce that Lisa Damiano's and Eric Steinhauser's article has been published in the April/May 2020 edition of *Geosynthetics*.

The article, "A Guide for Specifying Drainage Geocomposites," discusses how ASTM D7931 provides a guideline for calculating engineering properties related to drainage geocomposites. The complete article can be viewed by following [the link to this online publication](#).
