2023 New Shareholders  
Announced

Sanborn, Head & Associates, Inc. is pleased to announce the addition of four new shareholders in the firm.

"We are excited to celebrate the addition of new shareholders to our organization," said Barret Cole, President/CEO. "It is a demonstration of commitment by these individuals, and it continues our legacy of supporting growth and opportunity for the firm." Shareholders accept a promise to uphold Sanborn Head's Ownership Philosophy, a commitment to the greater good such that Sanborn Head will continue to create value and opportunity over the long term.

**Rich Mechaber, PG** heads up the firm's Data Management & Visualization team, which is driving innovation through our organization and transforming the way we capture data and deliver information to our clients.

**Heather Little, PG**, is a leader in the firm's Solid Waste market group, and she is an expert in the field of air quality and air regulations. Heather is skilled at modeling, permitting, and compliance work that supports the best interests of clients and the environment.

**Tim Snay, LSP, LEP** epitomizes Sanborn Head's collaborative culture through his integrative approach to the projects he leads in the firm's Development practice. He is well-versed in environmental due diligence, site assessments, and remediation strategies.

**Matt Van Rensler, PE**, is leading the expansion of our practice in the mid-Atlantic from the company's newest office in Wilmington, DE. He is a geotechnical engineer who specializes in construction-related engineering services for the firm's Development practice.

Please join us in celebrating these individuals and their commitment to Sanborn Head's future as a generational company.
