

Sanborn Head Sponsors and Presents at EBC Emerging Contaminants Seminar

FEBRUARY 25, 2020

As a proud sponsor of the EBC Emerging Contaminants Seminar, Sanborn Head is pleased to have had representatives at this special event.

The seminar focused on the life cycle of per- and polyfluoroalkyl substances (PFAS) from manufacturing to environmental deposition and human exposure. As a seminar speaker, Stephen Zemba, PhD, PE presented, *PFAS Cycling Between Landfills and WWTPS*, and discussed PFAS in landfill leachate and preliminary data from source investigations. The Seminar was held on February 25 in Framingham, MA.
