SANBORN HEAD

Scientific Journal of Biology & Life Sciences Publishes Article by Zemba & Pope

OCTOBER 22, 2020

An article co-authored by Sanborn Head's Stephen Zemba, and Sarah Pope along with the University of Vermont's Civil and Environmental Engineering Assistant Professor Appala Raju Badireddy has been published in *Scientific Journal of Biology & Life Sciences*.

The article, "Ecological Risk and Bioremediation of Per- and Polyfluoroalkyl Substances," discusses ecological risks of per- and polyfluoroalkyl substances (PFAS) and bioremediation of PFAS including the need for substantial research. Follow the link to view the complete article online.
